Subject: Microsoft Settlement

Dear Attorney General Ashcroft:

We support the Microsoft settlement with the Department of Justice. The time has come to bring this case to a close. The settlement is not really a very good deal for Microsoft because the company will have to provide information on Windows and how it works internally, and to allow computer manufacturers to easily remove some of Microsoft programs to replace them with competitors programs. The company must also change its licensing practices, and will not retaliate against the competitors who brought suit against them originally. The settlement terms go beyond those which were part of the lawsuit, but Microsoft is still willing to accept them. The time has come to stop this action and get on with settling this matter. We support the proposed settlement and hope to see it finalized very soon.
thank you Stanton and Corrita Jorgens
